

Standard Operating Procedure: ATIP Document Redaction Guidelines

Effective Date: January 1, 2026

Authority: Office of the Chief Privacy and Information Officer

1.0 Purpose

This document outlines the mandatory redaction standards for all Access to Information and Privacy (ATIP) requests. All compliance officers (human or AI) must adhere to these guidelines to prevent the unauthorized disclosure of sensitive organizational data.

2.0 Personally Identifiable Information (PII) Exemption

Any information that can identify an individual must be redacted to protect personal privacy, unless that individual is a public-facing executive acting in their official capacity.

* Mandatory Redactions: First and last names of non-executive employees, members of the public, or contractors. Personal or direct business phone numbers, personal or direct business email addresses, dates of birth, social insurance numbers, and provincial health card numbers.

* Redaction Marker: Replace identified text with [REDACTED - PII]

3.0 Security and Infrastructure Exemption

Information that could facilitate unauthorized access to physical premises, network architecture, or sensitive IT appliances must be withheld.

* Mandatory Redactions: Internal IP addresses (e.g., 10.x.x.x, 192.168.x.x), server hostnames, administrative passwords, encryption keys, and specific physical locations of secure hardware (e.g., floor numbers, room numbers, or sector designations of data centers and air-gapped environments).

* Redaction Marker: Replace identified text with [REDACTED - SECURITY]

4.0 Third-Party and Financial Exemption

Proprietary methodologies and sensitive financial data belonging to the organization or third-party vendors must be protected to prevent competitive harm or financial anomaly exploitation.

* Mandatory Redactions: Specific monetary values, project budgets, internal account numbers, transit/institution routing numbers, and the names of proprietary methodologies or patented systems provided under a Non-Disclosure Agreement (NDA).

* Redaction Marker: Replace identified text with [REDACTED - FINANCIAL]

5.0 Ambiguity Protocol

If a reviewing officer or system encounters data that potentially falls into these categories but lacks explicit definition within this SOP, the principle of least privilege applies. The data must be temporarily withheld pending a secondary review.

* Redaction Marker: Replace identified text with [REDACTED - FOR REVIEW]
